

I Want Farms!

I am doing some advertising in the north and east, and will have some people here shortly with the money to buy farms.

If you want to sell your farm, come in at once, and list it with me.

Don't wait—come now.

R.J. Putnam

Opera House Block
Jasper

At the request of some of the merchants of Jasper the News serves notice on a portion of the young America of the city that the practice of defacing signs along Grand avenue must cease. A number of boys of the age where forethought is conspicuous only by its absence have fallen into a habit of throwing missiles at and kicking the signs. It's a bad habit, boys, and will get you into trouble if you don't quit it.

By virtue of a deal consummated last Saturday C. F. Lyons is now the proprietor of the C. E. Campbell restaurant on the south side. Mr. Campbell taking in exchange therefor a number of shares in the local gas company's stock. Mr. Lyons has not yet decided to give the restaurant business his personal attention, the probability being that he will put it in the hands of experienced men at the business.

J. W. Dryden, who farms 5 miles southeast of Jasper, near the King schoolhouse, is to hold a public sale at said farm on Monday, the 16th inst., offering for sale a large amount of property listed elsewhere in this issue. Mr. Dryden has not yet decided where his home will be in the future, but will probably not leave southwest Missouri.

Garden seek in bulk at J. F. Bright's northern grown first quality. 3-12f

Reports from McAlester, Okla., are to the effect that little Homer Montgomery is very apt to lose one of his legs as the result of the accident mentioned in the News some weeks ago. Friends here hope the report may be a mistake, as the little fellow lost an arm (on the same side) while here last summer, and this later misfortune would make his plight a truly pitiable one.

Fresh northern grown garden seed in bulk at J. F. Bright's store. 3-12f

The warm weather the past week brought out the base ball boys in sufficient numbers to revive the talk of a team for Jasper this summer. There seems to be no lack of good material, if one can form a good estimate this early in the season. All that is needed is a first class battery, and the boys have their eyes on at least two men for each of these two positions.

Let the Wolf Hardware Co. grease your harness for \$1.00.

E. W. Bedell killed a hawk yesterday that he thinks is about the biggest ever seen hereabouts, measuring four feet from tip to tip of its wings. His hawkship was sitting on a fence at the Frank Keltner farm and rose so lazily at Wright's approach that the latter had time to get out of the mail back and bring him down. The hawk is of the "prairie" species, which attains great size.

Wolf's 5 and 10c counters are full of bargains.

Sunday's storm came as a very rude interruption to the beautiful weather we have enjoyed for several weeks past. We understand, however, that the fruit buds were not materially injured by the cold, which was of very short duration. If a real nipper should happen along after another week or so of sunshine we fear it will be all day with the peaches and other sensitive buds again.

Mrs. Louisa Butler, who moved from Jasper to Carl Junction last summer, is reported to be in very bad condition as a result of a fall on the stairs of her home there last week. It was not thought at first that her hurts were dangerous, but her condition has shown no improvement in the several days that have elapsed since the accident, and some alarm is felt on that account.

According to advices from Alba, David Beagle, a son-in-law of A. H. Hendricks, and well known here, is ill at his home in that city, his condition being so serious that his recovery is not expected. Mr. Beagle has been a sufferer from dropsy for several months, and his wife also is confined to her bed with malaria. Her condition, however, is not serious.

Chas. Ray was adjudged insane by a board of physicians at Carthage and will be taken to Asylum No. 3 at Nevada. This finding has created a good deal of criticism here, where Charley is generally regarded as perfectly sound in mind. However the court's decision in the matter is final and he will have to make the trip unless the decision is reversed later finding.

FOUND—Wagon and gate. Owner see J. O. Cartwright.

Business Change.

Sam Jones and Tom Easley have bought the old Dafer stand of R. J. Putnam and are conducting a confectionery and lunch business. Baker and Thornton, the new south side grocers, bought the meat market end of the concern and have established the same in the rear end of their store, the old Frick millinery stock having been moved to the Keltner building to make room there for.

Roy Boucher, who is an experienced meat cutter, has been employed by the firm in that capacity.

Sabbath Mar. 15: Sunday school at 10 a. m., Geo. W. Paisley, Supt; Subject at 11 a. m. will be: "Smooth Living With Man." Subject at 7:30 p. m. "How to Attain This Smooth Living With Man." Come out at these hours of worship and let us study these subjects together. Everybody welcome. J. S. STAPLETON, Pastor.

The youngest patron the News job department has ever had was served last week in the person of Glenn Holmes, the 10 year-old son of D. H. Holmes, the well known painter. Glenn is going to have a "show," and with unusual wisdom for his years, decided to patronize printer's ink, so had tickets printed, which were delivered last Saturday. We don't know when this show is to be, but we bet it will be a "hum dinger," and nobody who admires business qualities in a youth will refuse to buy a ticket of Glenn when he puts them on sale.

Pointers on Paint.

It never pays to let a building, vehicle or implement suffer for paint.

If you do, it will take much more paint and cost you more money when you do paint.

Furthermore, the lumber will rot, the iron will rust and your property go to decay rapidly.

The interest on the few dollars expended for paint will nothing like compensate you for these losses.

Then consider the looks of the thing. Every man has, or should have a pride in the way his buildings, wagons, buggies, implements, furniture etc. look.

NOW IS THE TIME OF YEAR TO PAINT.

I Carry All Kinds of Paint.

24 colors in house paints—HUGHES and SHERWIN-WILLIAMS. No better made. Barn Paint, Floor Paint, Screen Paint, Wagon and Implement Paint, Carriage Paints and Varnishes, (the best qualities), Household Paints and Varnishes, Full line of White Lead and Linseed Oil.

I also carry the Famous Alabastine Wall Finish which costs less than 1-4 the cost of wall paper and is more sanitary and genteel. A 50 cent package will finish an ordinary room.

I also carry a full line of Paint Brushes.

See me about Paints and painting. I will save you money all along the line.
